

## Risk assessment specific to Covid 19 in the workplace – At PI HQ and Satellite Hall Sites.

**Company name: Party Ingredients Catering Services Ltd Assessment carried out by: Vicky O’Hare**

**Date of next review: In response to Government Information / Legislation Updates whilst in pandemic outbreak**

**Date assessment was carried out: 18/07/21**

What are the hazards?	Who might be harmed and how?	What are you already doing to control the risks?	What further action do you need to take to control the risks?	Who needs to carry out the action?	When is the action needed by?	Done
<b>Viral Infection at work</b>	All workers and guests coming within 2m of each other or picking up infection from contaminated surfaces.	Risk assessment, new policies and procedures, training, signage and constant communication. Strict policy of social distancing (2m or 1m+), enhanced cleaning and attention to personal hygiene (handwashing). Hand sanitiser stations at all entry and exit points. Each task reviewed	Continued review, reaction, update and communication.  Consideration of full static teams working in satellite halls to reduce worker contact and provide further infection contingency.  Visual aids and work instructions rotating to ensure consistent and continued engagement with safety messaging.	Management and all workers and guests	Immediately, with weekly review	

What are the hazards?	Who might be harmed and how?	What are you already doing to control the risks?	What further action do you need to take to control the risks?	Who needs to carry out the action?	When is the action needed by?	Done
		<p>with consideration for the need for PPE (face covering / gloves). Regular "induction" briefing to remind all staff of routine safe conduct.</p> <p>Introduction of team working to minimise the number of people in contact with each other in the workplace.</p> <p>Introduced varied shift patterns to ease access and egress traffic.</p> <p>Maximised home working to reduce workers numbers in the building and facilitate social distancing.</p> <p>Twice weekly lateral flow testing for all</p>	<p>Continued consultation with workers.</p> <p>Discretionary use of track and trace app at work.</p> <p>Continued monitoring and actioning Government updates and recommendations in line with scientific research.</p>			

What are the hazards?	Who might be harmed and how?	What are you already doing to control the risks?	What further action do you need to take to control the risks?	Who needs to carry out the action?	When is the action needed by?	Done
<b>Arrival at the building</b>	All workers and guests coming within 2m of each other or picking up infection from contaminated surfaces.	workers, and daily temperature checks. Record maintained of all guests to the premises.		All workers and guests	Immediate	
<b>Contaminated Clothing / Belongings</b>	All workers coming into contact with personal belongings may pick up infection.	Staggered shift timing, worker entrance and delivery / guest entrances separate, sanitising protocol in place. Sanitise prior to any door contact on arrival and proceed immediately to handwash when inside.	All workers to know and observe their shift timings, and prepare to observe all protocols on safe access to the building. All guests - deliveries to be pre briefed on the access they should use and the protocol they will follow. One shift manager assigned as "host" to incoming guests / deliveries. Review and remind policy for all staff.	All staff	Immediate	

What are the hazards?	Who might be harmed and how?	What are you already doing to control the risks?	What further action do you need to take to control the risks?	Who needs to carry out the action?	When is the action needed by?	Done
<b>Keypad / Door Handle Use</b>	All workers picking up infection from contaminated surfaces.	work. All clothing should be washed at the highest possible temperature to kill the virus. Personal belongings must be removed at the end of every shift. All workers to sanitise hands using on arrival PRIOR to entering on the keypad or using door handle. Wipe in / Wipe Out protocol.	All workers to ensure they have sanitiser and use it prior to EVERY contact with the keypad or door handle. Review and remind policy for all staff.	All workers	Immediate	
<b>Increased Contact in Changing Rooms</b>	All workers coming within 2m of each other or picking up infection from contaminated surfaces or belongings.	External signage on the door showing changing room occupation. One worker only in the changing room at a time.	All workers must update the sign when they enter and leave the changing room, leaving the door wide open when the room is unoccupied to encourage air circulation.	All workers	Immediate
